## Intensive Hair Therapy

Premature hair loss prevention

**DERMEDICS™ MESO HAIR** is a peptide serum created for reinforcement of hair bulbs to prevent hair loss. This intensive therapy is recommended for people experiencing premature hair loss.

### Overview

- Daily skin care of scalp mostly (but also for face and body)
- Unisex: for women and men with hormonal disorders
- Excessive hair loss
- Androgenic alopecia in women and men no matter of age caused by overproduction of DHT  
(DHT = dihydrotestosterone – a sex steroid and androgen hormone responsible for alopecia in men – regardless of age – and in women during menopause – due to female hormones deficiency)
- Alopecia in women aged 50+ (menopause)
- Alopecia in men aged 50+ (andropause)
- Alopecia hereditary
- Can be used also on beard or on chest by men

### Effects

- Assists in reduction of DHT
- Protects and repairs the structure components of the hair
- Stimulates cell metabolism
- Prevents hair loss
- Improves scalp micro-circulation
- Slows follicle ageing process
- Helps to accelerate hair grow

### Active Ingredients

Biotinyl-GHK (matrikine peptides in sequence Glycyl-Hystidyl-Lysine linked to Vitamin H/B7-Biotin) + Apigenin Bioflavonoid + Oleanolic Acid

### Directions for use

- Mesotherapy
  - electroporation (electrophoresis)
  - ultrasounds (sonophoresis)  
(for men on face and chest depending on needs – avoid heart area)
  - CAUTION: do not use ultrasounds for scalp therapies !!!**
  - iontophoresis (+ or -) = no ionisation effect  
(serum does not contain ions so iontophoresis will be neutral)
  - derma-roller / dermapen (max 0,25mm)  
(if you use needles longer than 0,25mm then apply the serum after around 7-10 minutes from treatment – read micro-needle protocols of use)
- Oxygen therapy
- Chromology™ Photodynamic Therapy (PDT)
- Post abrasion skin care  
(in procedures for skin of scalp use only hydra abrasion)
- Manual scalp massage
- Relaxing massages of face and chest (chest in men only)
- Daily skin care
